O'lala Pets®

Dear customers,

It has already been twelve years since you joined us and we are truly delighted to be able to provide your business with our products.

The catalogue 2022/2023 is bringing you many changes. To those, who are mesmerized by its photos, we would like to introduce the world-famous German photographer Christian Vieler-Kircher. You can judge for yourselves there is the love and good spirit all over which leaves a great and positive effect on the our state of mind making the time spent browsing the catalogue more pleasant.

To work hard and keep up the quality to have happy pets and their masters... should be really known as our motto!

We try to produce in order to meet your design expectations and at the same time products highly functional with a long-life use providing the comfort for you and your pets. And of course, the main goal is an affordable high quality product.

We are proud of our Czech production and of the fact that O'lala pets find its way to your homes all over Europe.

We will make sure that our cooperation remains pure joy and delight.

Thank you!

*On behalf of I love pets s.r.o.

COOLING MAT

The cooling pad for dogs and cats starts cooling when the animal comes into contact (resting) with the pad. An endothermic reaction occurs, converting the crystalline contents into a liquid. This endothermic reaction takes several hours.

The pad does not need to be cooled before use, if the ambient temperature is below 25°C the pad remains in a crystalline state. The pad will return to its original state as soon as the animal leaves it. For a pad that has been used for several hours, a complete reverse transformation occurs after approximately 30 minutes.

The cooling pad is also ideal for travelling and folds up easily.

Also excellent for show cages.

Pad thickness approx. 1 cm, washable, water repellent.
